

Assignment 7.1

1. Histogram for all variables in a dataset mtcars.

Write a program to create histograms for all columns

Mtcars-plots.R file is attached , but mainly we use histogram for discrete values

2. Check the probability distribution of all variables in mtcars.

distribution_mtcars.R attached

3. Write a program to create boxplot for all variables.

Mtcar-boxplot.R attached ,
